Note: These reports cover twelve prefectures from which final returns have been received. Future issues of the Official Gazette will publish the returns from other prefectures as soon as they are available. The figures in parenthesis show the numbers of prisoners in prisons whose terms of imprisonment were decided and persons in reformatories whose dispositions were decided.

November 25, 1948

Remarks:

1. Letters, samples of merchandise and small packets, containing dutiable articles, are accepted only for countries indicated "Admitted" in their respective columns in this table, provided that letters containing dutiable articles may not be sent from Japan to any foreign country for the time being.
2. The countries having in columns the indication "DPA, Admitted" exercise the "delivery at the place of address" service for the respective mail articles, while those having in the same column the indication "DPA, Admitted^o" exercise the "delivery at the place of address" service as a general rule, but, as the case may be, do not exercise the service by reasons of, for example, taxation of customs duty.
3. Articles destined for countries having no indication in column 7 must be accompanied by a green label Form U 1 and customs declaration both written in French.
4. Mail matter containing dutiable articles must be stuck a green label Form U 1. However, in case of attachment of the required number of customs declaration indicated in column 6, only the upper part of the label Form U 1 may be stuck to the mail matter.
5. For the time being, every sample of merchandise and small packet must, in addition to the required number of customs declaration as shown in column 6, be attached, for export examination by customs, a copy of the declaration having indications of whether the settlement of price of the articles contained has been made, of the purposes of exportation and of whether the export licence has been obtained.
